Introducción

Para la presentación de los registros bibliográficos se ha utilizado el modelo Chicago B de referencias. Contiene además las palabras-clave que identifican cada referencia por su departamento, base de datos en las que se incluye dicha referencia, materia de la revista y colaboradores: de otros departamentos de la ULE o fueron realizados con en colaboración con otros autores de otras instituciones nacionales o internacionales.

En los casos que se haya realizado una obra en colaboración interdepartamental o insitutos de la ULE, esta obra figurará en tantos departamento como colaboraciones internas se haya producido.
